MEDICAL  
DEVELOPMENT

#### Scientific Supervision

**Dr William Alazawi,**  
Queen Mary, University of London

*Dr William Alazawi is Reader in Hepatology, Queen Mary, University of London. He qualified from Cambridge and trained at Addenbrooke's Hammersmith, King's College and Royal London Hospitals. Will is passionate about teaching and lecturing. He has directed undergraduate and postgraduate medical course since 2006 around the UK and overseas. We asked Will to tell us why he is looking forward to directing our course.*

*„I was delighted when Sina and Antje asked me to be the Course Director for the London Update Refresher in 2018. I have run and taught on many courses over the years but this one will be refreshingly different. Delivered in short, clear lectures, each speaker has been carefully briefed to tailor their 30-45 mins to a focussed topic attendees tell us is essential to their practice and learning. Plenty of time is available for questions – some set aside in the timetable and also informally in the breaks. I look forward to welcoming you all in London in January.“*

Designed for **GPs, specialists, doctors in training and practice nurses**, these intensive training courses offer:

Concise practice update presentations delivered by specialists in the field.

6 CPD Credits per day will be applied for. An application has been made to the EACCME® for CME accreditation of this event. The credits are recognised throughout Europe, in the USA and Canada.

Extended Q & A sessions.

Conference handbook with all the presentations provided to participants in printed format.

#### Organisation

Centre for Medical Development  
Hamilton House, Mabledon Place  
Bloomsbury, London, WC1H 9BB
